Very Important!! Please Read!!

It is important that everyone continually take necessary health precautions as they would to prevent the spread of this or any other communicable illness. This includes washing your hands with soap and water often (or hand sanitizer if soap and water is not available), covering your mouth when coughing or sneezing with a tissue or the inside of your elbow, avoiding close contact with anyone who is sick, and avoiding touching your eyes, nose and mouth with unwashed hands. I know "Handshaking" is a Masonic tradition, however I would highly suggest refraining from all hand contact.

It is also important not to panic. For the health of the community, it is advised that if anybody is exhibiting any signs of illness, they should stay home and recover from the illness before joining any planned gatherings.

At present time Grand Lodge will proceed as scheduled but everyone is encouraged to take personal precautions. We will have anti-bacterial wipes around the building.

Sincerely and Fraternaly,

Amanda S. Fallos  
Certified Physician Assistant
